

RISE Recovery Community provides a new and current way for recovering addicts to live in society drug and alcohol free. RISE serves people ages 18 and up from all walks of life who are coming out of detox, treatment, hospital, jail, or prison, along with those who are homeless or on the street, including veterans.

RISE has 13 facilities to offer supportive housing and serves up to 65 people in the RISE program.

The RISE recovery program provides the much-needed structure for members to transition back into society as a drug and alcohol free productive citizen, while living by the RISE motto:

“We insist on enjoying life!”

At the hub of this recovery community is Club RISE, a 4,200 sq. ft. sober-living community center, open 365 days a year, where RISE members, as well as anyone in recovery, can gather for sober activities and self-help meetings.

▶ The main goal of the RISE Recovery Community is to restore an individual’s desire to live a full life and provide tools to avoid the world of addiction.

OUR MISSION

WAI-IAM, Inc. and the RISE Recovery Community is a non-profit organization with a mission to provide prevention, awareness and post-treatment services in the area of substance abuse.
