

Meet Myla

Born in Poland in 2019, Myla has worked with top trainers in Michigan to detect substance odors including: MDMA (ecstasy), meth, cocaine and heroin. She is capable of locating the source of drug odor and drug paraphernalia even if the drugs have been recently removed, used or destroyed.

About Us

Take a safe and CONFIDENTIAL approach to substance use disorders. RISE K-9 Detection Services offers confidential drug detection services for businesses, schools, vehicles, private residences and treatment centers.

What we Promise

Certified

The nose knows.
Certified in drug detection.

Confidential

No barking allowed.
When working with us
everything is confidential.

Reliable

A team you can count on, a
team you can trust.

RISE K-9 Dectection Services

K9 Drug Detection Services to keep
you family and organizations safe.

Serving Michigan Families,
Schools, Businesses and
Recovery Facilities

What to Expect

Our team will arrive in a discreet unmarked vehicle. The team will review the procedures and confidentiality. It's recommended the suspected drug user not be present during the search. Searches can be scheduled at any time to suit your business or personal needs. One person may escort the detection team and observe inspection activities.

Myla is trained to provide an alert that is passive, non-destructive and not disturbing. In the event of an alert, you will be advised of the alert and you will decide how to proceed. You can handle the situation without the intervention of law enforcement, courts, media or human services. Recommendations will be provided for disposal/destruction of substances and paraphernalia.

The team will provide resources to help parents and business owners.
